Dear Sir,

Dear Madam,

The Medical Cluster "Health Romania" is the first medical cluster in Romania, which brings together top healthcare institutions, healthcare providers, professional organizations, higher education institutions, medical tourism facilitators, organizations etc. in order to jointly promote the highest level of quality in patient care.

Founded in April 2014, the cluster aims to capitalize the resources and accumulation of the field in a flexible and modern organization, able to establish active relationships with patients from home and abroad and with similar European and international organizations. The Medical Cluster “Health Romania” is registered and recognized by the Romanian ministries and also by the European structures.

The Medical Cluster “Health Romania” sets its mission in the development and promotion of the international competitive health services and products, providing the status of medical tourism destination to its members and to Romania.

Through its members, the Medical Cluster "Health Romania" has expertise in areas like:

• Surgery: mitral valve repair surgery, coronary surgery on the beating heart ("off-pump"), mini-invasive cardiac surgery, thoracic-abdominal vascular surgery, carotid surgery, thoracic surgery, laparoscopic surgery, surgical oncology, obesity surgery, oral and maxillofacial surgery, plastic surgery, Pathologic breast surgery-senology and gynecologic surgery, neurosurgery

• Clinic:

- Treatments and medical consultations: radiotherapy and chemotherapy, all types of specialized medical consultations

- Recovery: physiotherapy, kinesiology, sports medicine, balneology, rheumatology

- Investigations: medical imaging (MRI, CT, endoscopy, ultrasound, spectroscopy, etc.)
The national network of the cluster includes medical providers: clinics, medical centers, mono and multi-disciplinary hospitals, excellence centers, imaging centers, fertilization centers and spa centers.

Considering the medical potential, the areas of excellence and by bringing together the major players in the field, the Medical Cluster "Health Romania" aims to establish a system for the capitalization and the international promotion of high quality medical services. In this regard we propose you a partnership to jointly identify the most appropriate ways to manage patients in order to give them access to top medical services at a competitive price.

Best regards,

Aurel Borsan
